

We at West Control Solutions are committed to an Environmental Management system that:

- Protects the environment, including prevention of pollution.
- Complies with all environmental legal obligations and to ISO14001
- Sets and reviews environmental targets and objectives to continually enhance the environmental performance of the business
- Identify the QHSE Manager to act as the top manager appointee for the purposes of Environmental management

This policy will be communicated to all associates within the company and shall be made available to interested parties by means of the company website.
