

NTC Temperature Probes

Datasheet / Fiche technique / Datenblatt

Overview / Présentation générale / Übersicht

NTC probes are used for temperature measurement with thermostats.

Les sondes de type NTC sont utilisées avec notre gamme de thermostats pour mesure de température.

NTC Sensoren für den Einsatz mit Digital-Thermostaten

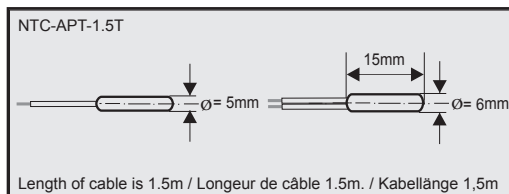

| | |
|-------------------------|--|
| NTC - APT - 1.5T | Air probe, thermoplastic shell, 1.5m thermoplastic cable / Sonde Air, gaine thermoplastique, 1.5m câble thermoplastique / Luftsonde - Thermoplast-Hülle - 1,5m Thermoplast-Kabel |
| NTC - APP - 1.5P | Air probe, plastic shell, 1.5m PVC cable / Sonde Air, gaine plastique, 1.5m câble PVC / Luftsonde - Kunststoff-Hülle - 1,5m PVC-Kabel |
| NTC - LPS - 1.5S | Liquid probe, stainless steel shell, 1.5m silicone cable / Sonde Liquide, gaine inox, 1.5m câble silicone / Flüssigkeitssonde - Edelstahl-Hülle - 1,5m Silikon-Kabel |
| NTC - APS - 1.5S | Air probe, stainless steel shell, 1.5m silicone cable / Sonde Air, gaine inox, 1.5m câble silicone / Luftsonde - Edelstahl-Hülle - 1,5m Silikon-Kabel |

Technical Properties / Caractéristiques techniques / Technische Daten

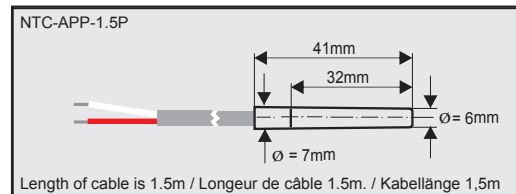

| Sensor Type / Type de sonde / Sensortyp | Sensor Code / Référence pièce / Bestellnummer | Range / Plage / Bereich | Accuracy / Précision / Genauigkeit |
|--|--|-------------------------|---------------------------------------|
| NTC | NTC - APT - 1.5T | -50...+105°C | ±0.5°C |
| NTC | NTC - APP - 1.5P | -30...+80°C | ±0.5°C |
| NTC | NTC - LPS - 1.5S | -60...+150°C | ±0.5°C |
| NTC | NTC - APS - 1.5S | -60...+150°C | ±0.5°C |

Technical Drawings / Dessin Technique / Technische Zeichnungen

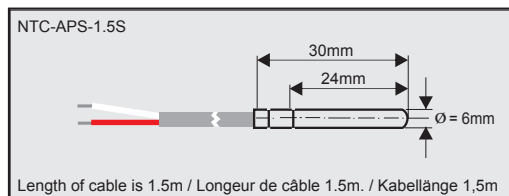

Thermoplastic Air Probe / Sonde Air, gaine thermoplastique /
Luftsonde - Thermoplast-Hülle

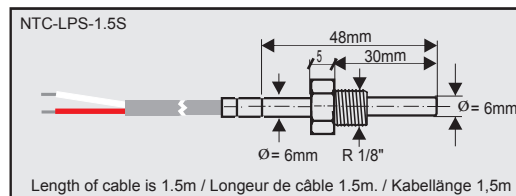

Plastic Air Probe / Sonde Air, gaine plastique /
Luftsonde - Kunststoff-Hülle

Stainless Steel Air Probe / Sonde Air, gaine inox /
Luftsonde - Edelstahl-Hülle

Stainless Steel Liquid Probe / Sonde Liquide, gaine inox /
Flüssigkeitssonde - Edelstahl-Hülle
